

Edge Anywhere - Now Available to Anyone

Edge Anywhere, Constellation Financing System's powerful Window's front-end workflow system, is now available to small to mid-size companies as an economical service based platform. Get the power of a full featured, flexible Window's application with the associated cost and efficiency of setup and management of a hosted, browser based solution.

Edge Anywhere provides the following advantages:

- Easy to Implement (a simple install on your workstation and you're ready to go).
- Multi-User (***Edge Anywhere*** can support any number of users all accessing the same data).
- Low to No Startup Cost (no servers to buy, no software to purchase).
- No Long Term Contracts (***Edge Anywhere*** is purchased in quarterly installments and can be cancelled at any quarterly renewal).
- Inexpensive enough for even the smallest company (prices as low as \$100/month per user).
- Services are Modular and Expandable (Use just what you need but have the capability to expand into functions used by many Monitor 100 companies).
- Add a low cost web portal for your business partners to access if desired.
- Retain your data (Constellation will provide you with an MS Access based copy of your SQL Server database if you decide to leave ***Edge Anywhere*** at any point).
- Full Documentation (Follow the ***Edge Anywhere*** QuickStart guide and be working shortly after installation).

Edge Anywhere combines the rich, full featured benefits of a mature Windows 32 bit software application with the efficiency and ease of a MS SQL Server database that is hosted and maintained by Constellation on Constellation servers. Install ***Edge Anywhere*** on workstations at your office, laptops, home computers, anywhere that has broadband Internet access and you're ready to use one of the most powerful financial services applications anywhere without the need for costly IT support or hardware or third party application sharing tools such as Terminal Services or Citrix MetaFrame.

Edge Anywhere comes with telephone technical support during Constellation's normal office hours and 24/7 email support.
