

# FOCUS

View your business through a clear lens

## Complete, cost-effective solution

- Handles fixed rate leases, conditional sales, and loan contracts for vehicles or equipment
- Weekly, Bi-weekly, Twice Monthly, Monthly, Quarterly, Semi-Annual, Annual and Seasonal Payment Frequencies
- Covers entire process from booking and funding through contract management to contract termination and asset sale

- **Embedded business intelligence tool**
- **Batch processes to efficiently run day-to-day business without users having to do repetitive tasks**

## Easy to use

- User enters a few data elements and the system creates pre-configured entries to the General Ledger
- Automation of repetitive tasks
- Application can be interfaced with any front-end system that can pass data in XML format - or integrate through our API

- **Fully Integrated General Ledger (only one in North America)**
- **Solid accounting that doesn't require a CPA to understand**

## Scalable and secure

- Meets your ever changing business needs (for users with 200-200,000 contracts)
- Data housed in a high-security, fully redundant data facility
- Oracle database in the back-end

- **Low implementation costs; no upfront license fee.**
- **No need to hire systems and database admins**
